

## HIGHLIGHT OF TASK FOR CONSONACE PROFILING

### Features

- Signup / Login/ Logout
- Homepage
- Activity
- Groups
- Members
- Profile
- News/Events
- Projects

**Signup / Login/ Logout** this is the first page seen on launch of the application. It includes a form with necessary details (for the signup and login), remember me option and a 'forgot password' link. There should be a verification process here to verify the email and other important fields. Also, the password should have at least 6 characters. The functionalities includes;

- Registration and logging in of members.
- Confirmation of member account by the admin before user is marked as active.
- Registration and logging in of admins.

The screenshot displays the Consonance application's login and signup interface. The top navigation bar is dark blue with white text for 'CONSONANCE', 'ACTIVITY', 'BLOG', 'GROUPS', 'MEMBERS', and 'ABOUT US'. A 'SIGN UP' button is located on the right. The main content area is split into two panels. The left panel, titled 'LOG IN', features a background of orange and yellow flames. It contains input fields for 'email address' and 'password', a 'Remember Me' checkbox, and a 'LOG IN' button. The right panel, titled 'PERSONAL INFORMATION', has a background of blue and white smoke. It includes input fields for 'first name', 'last name', 'email address', and 'password', a 'school' dropdown menu, and a 'NEXT' button with a right arrow. At the bottom right, a link reads 'SKIP TO HOMEPAGE YOU CAN COMPLETE YOUR PROFILE LATER'.

**Homepage** this is the first page seen after successfully signing in. As shown in the mockups it should contain a summary of what consonance is about (About us), Contact and links to different pages.

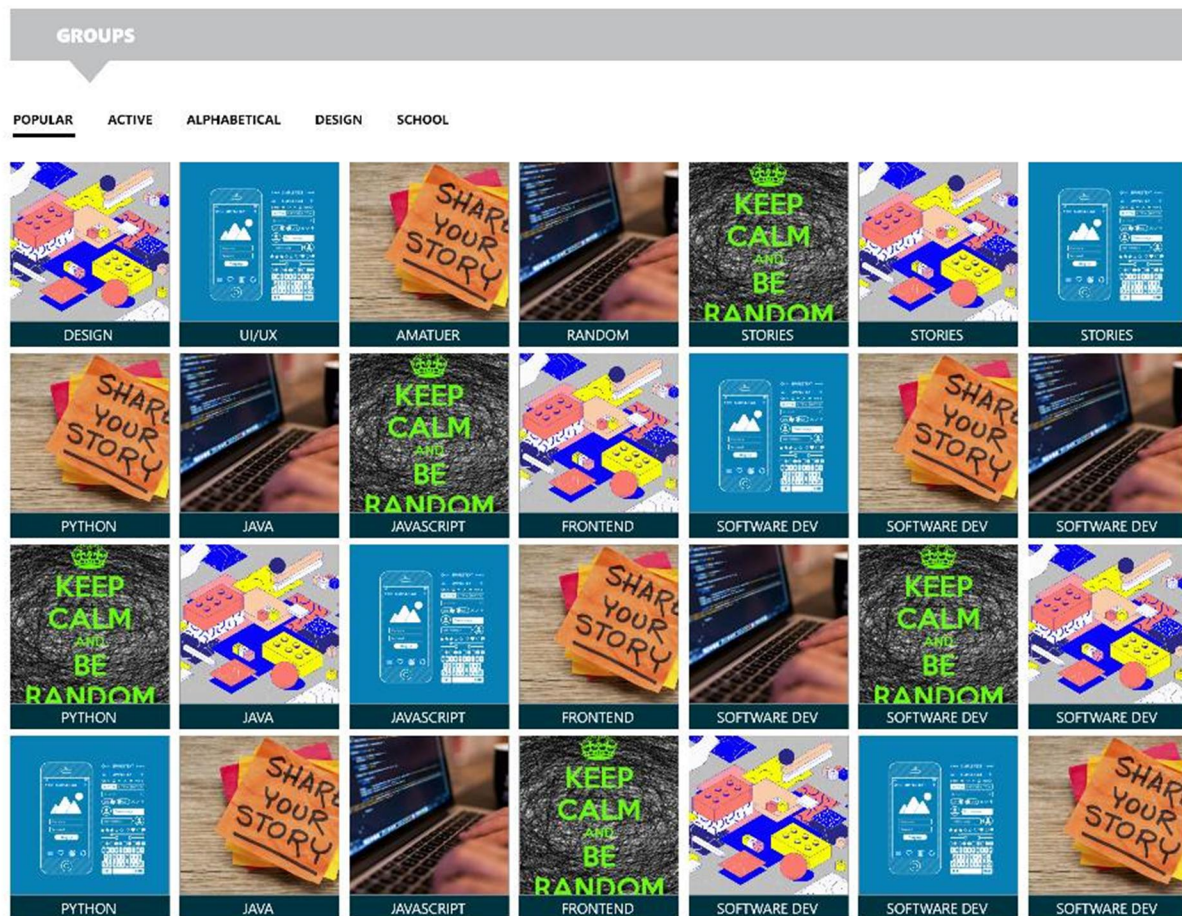

**Activity** shows post by the super admins about the community, projects and events. Members of the community can view, comment, like and share the post.

**Groups** this is a grid view display of all groups in Consonance. Groups in this sense can be likened to our different channels on Slack so for instance we have Hardware-IoT, Design, Web, Mobile, Infrastructure, Startup, Crypto... etc.it should contain a picture to represent what the group is about so that any newbie would have an idea on first look. Only channel moderators (which will be given admin access for this purpose) can post contents related to a specific group. They should be able to send mails to members according to their interest in the group. Functionalities includes

- Automatic sorting in alphabetical order or by Popularity or by Favorite.
- Ability to select a favorite group.

**Members** this tab should contain a list of all members on Consonance with their profile picture or avatar, name, school and Job description (e.g Frontend developer, Designer, Android developer etc.). It should be in a grid view. On click of the picture more details should be revealed. This page should also include a search function.

**Profile** this page comes up when the profile icon is clicked. It should contain personal information about members of the community. It should look professional like the LinkedIn profile page containing information about projects worked on, Github links and other social links.

**News/Events** this should contain details about upcoming events within the community or outside the community. Also, news about the Tech ecosystem should be posted here by the super admin. It should be on the right corner of the landing (home) page. Functionalities include;

- Create event by admin.
- Delete event.
- Viewing of all events ordered by date.

**Projects** this contains a list of projects by the community and members of the community. It should be on the left corner of the home page. Only the super admin is allowed to post projects.

## ADMIN FUNCTIONALITIES

1. Register
2. Log in
3. Confirm newly registered member
4. Create new event

5. Delete new event
6. Suspend a user

#### Task for Frontend

S/n	Feature	Developer	Duration
1	Signup / Login/ Logout	Emmanuel	
2	Homepage	Emmanuel Bakare	
3	Members	Emmanuel Bakare	
4	Activities	Emmanuel	
5	Groups	Emmanuel Bakare	
6	News / Events	Emmanuel	
7	Profile	Emmanuel Bakare	
8	Projects	Emmanuel	

#### Task for Backend

S/n	Functionalities	Developer	Duration
1	Authentication	Mayowa	
2	Activities	Ola	
3	Members	Mayowa	
4	News / Events	Mayowa
